EqualLogic Sews Up Distribution Agreement with ACA Pacific

EqualLogic® Inc., a leading provider of iSCSI-based, self-managing networked storage solutions, announced a distribution agreement with ACA Pacific distributing and supporting EqualLogic's PeerStorage™ array. Available immediately, the PeerStorage Array Series is the first iSCSI storage device in KCC Information & Communication's extensive product portfolio.

With mature IT Infrastructures and sophisticated enterprise needs, the Singapore market is ripe for more competition and a mature iSCSI SAN product. Mr H.B. Tan, Director of ACA Pacific "As a broad reaching Distributor in these markets, it is critical for us to be able to differentiate to our channels and customers a unique product range, to be a leader in the market and also be able to offer a business model for channels that creates opportunity with ample profitability for all. Many of our customers had complained that they are force fed products from the competition, and channels complained of too little margin in the business model. Together with EqualLogic we are forging new sales opportunities and educating the market on the cost, consolidation and management benefits of iSCSI storage solutions."

EqualLogic and ACA Pacific are making iSCSI storage arrays a smart investment for Singapore's channels and business customers seeking the benefits of consolidated storage without the prohibitive ownership costs and management complexities linked with traditional storage area networks (SANs). This partnership combines ACA Pacific's market, technology and services expertise with EqualLogic's best-of-breed storage solution. EqualLogic's enterprise-class PeerStorage array delivers robust management and performance features, including snapshot creation and management, automatic RAID configuration, and automatic array and network load balancing, with the economic benefits of iSCSI connectivity.

"EqualLogic's agreement with ACA Pacific significantly expands our global reach, bringing our PeerStorage technology into a key market segment that is just realizing the economic advantages of iSCSI for simplified storage consolidation and management. This partnership makes rapid market penetration a reality for both our companies," said Steve Peabody, Executive Vice President of Sales at EqualLogic. "ACA Pacific's commitment to delivering unparalleled service and support makes them the ideal partner for EqualLogic as we strive to meet current and future market demand for innovative, self-managing SANs."

About EqualLogic, Inc.

PeerStorage@olutions from EqualLogic, Inc. deliver the benefits of consolidated storage in a modular, self-managing, IP-based storage area network that is affordable and easy to use, regardless of scale. By eliminating complex tasks and enabling fast and flexible storage provisioning, PeerStorage solutions dramatically reduce acquisition and ongoing operational costs and make enterprise class shared block storage practical for the mid-range storage market. EqualLogic is based in Nashua, NH. For more information visit <http://www.equallogic.com> or <http://www.peerstorage.com>

About ACA Pacific Technology (S) Pte Ltd

ACA Pacific Technology (S) Pte Ltd is an established IT marketing and value-added distribution company since 1986, serving the Asia-Pacific region. Solutions offerings include selecting and integrating only the "Best-of-Breed" software and hardware to meet customers' requirements. Being associated with the world's top IT product manufacturers and developers, ACA Pacific Technology is constantly upgrading its distribution portfolios to bring the latest technology to the market, with offices in Singapore, Australia, Malaysia, Thailand and USA, and an extensive network of over 800 trained and certified channel partners. Supported with comprehensive tangible facilities and unparalleled levels of pre-sales support and customer service, ACA is deemed one of the leading IT suppliers in Asia.
