BIGFIX APPOINTS ACA PACIFIC TO EXPAND ITS MARKET SHARE IN SINGAPORE

ACA Pacific to distribute its range of real time IT security and management solutions to its extensive channel network

EMERYVILLE, Calif. and SINGAPORE—May 21, 2008 – BigFix, Inc., a leader in real-time IT security and management solutions for the distributed enterprise, has signed ACA Pacific Pte Ltd as a distributor for BigFix products and solutions in Singapore.

Under the agreement, ACA Pacific will sell and support BigFix products to other resellers. The arrangement marks another step in BigFix's drive to build a strong sales and service channel in key markets around the world.

George Billman, BigFix vice president of business development said, "ACA has impressed us with their deep understanding of security and system management requirements of companies, governments and other organizations in its region. We also believe that BigFix will join a list of complementary technology suppliers representing some of the most respected names in the global information technology industry. We look forward to a prosperous and mutually advantageous business relationship."

Mr. Mark Gill, Managing Director of ACA Pacific commented, "BigFix delivers award winning security solutions through real-time endpoint visibility and control on-demand architecture. Its business model of enabling better return-on-investment through slashing IT infrastructure costs of ownership and management complexity is a valuable asset for the Singapore security landscape."

"We are delighted to have forged this timely strategic alliance with BigFix as we continued to expand our range of solutions to our channel partners. We look forward to bring positive business values to all our partners through aggressive go-to-market sales and marketing campaigns," added Mark.

Apart from the security and networking solutions, ACA Pacific also carries five other product lines in Singapore namely: Design Automation, Media and Entertainment, Data Storage and Backup, Document Imaging and Business Applications.

###

About BigFix

BigFix®, Inc. offers the only real-time converged PC and server lifecycle configuration and endpoint protection framework that enables organizations to see, change, and enforce IT policies in real-time at global scale. Designed for highly distributed and complex IT infrastructures, BigFix delivers real-time endpoint visibility and control through its single-agent/single console, multi-function, on-demand architecture. Its award-winning technology is proven in production in top-ranked Wall Street financial firms; leading retailers; healthcare delivery organizations; national, state/provincial and local governments; and educational institutions worldwide.
